

EXTREME MITERTM INSIDE GUTTER CORNER

WE AT HANCOCK ENTERPRISES, AFTER MANY YEARS OF R&D AND COUNTLESS PROTOTYPES, ARE NOW INTRODUCING ONE OF THE MOST INNOVATIVE AND PRACTICAL PRODUCTS TO EVER HIT THE GUTTER MARKET. "THE EXTREME MITER"

OUR NEW MITER HAS A 45 DEGREE FRONT THAT EXTENDS THE WATER CATCH BASIN TO ALLOW MORE WATER TO FLOW INTO IT. THUS SOLVING THE AGE OLD PROBLEM OF WATER SPLASHING OVER THE LIP OF THE MITER ON INSIDE CORNERS, WHILE STILL MAINTAINING AN ATTRACTIVE APPEARANCE.

SEE SELL SHEET ON FOLLOWING PAGE.

WE HAVE HAD NOTHING BUT POSITIVE COMMENTS LIKE THIS ONE FROM THE FIELD:

"I appreciated your team getting these Extreme Miter made so we could make these customers "Extreme"ly satisfied. The flow of compliments was endless! We have installed over a mile of gutter on this one condo project in Holland, Michigan all using the new Extreme Miter.

I am placing an order tomorrow to change all our inside miters to your Extreme Miter.

I sincerely appreciated the service and the product!"
